SKILLS

Languages: Proficient in Java, JavaScript, HTML, and CSS | Experience with Python and SQL
Frameworks: ReactJS, jQuery, Flask, Spring Boot
Tech: Git, Postman, AWS, Docker, VSCode

PROJECTS

Codemaxxers   2023 – Present
Full Stack (Java, SQL, Javascript)   *San Diego, CA*
- Developed a web-based RPG game with JWT authentication, user account progression, and online interaction with other users using websockets
- Built a Spring Boot Java backend in AWS that stored users in SQL databases using JPA and handled user data changes with API calls to endpoints
- Managed an 11-person team using agile methodologies like the scrum process to manage and plan out our project over 8 months

Stocktify   2023
Full Stack (Python, Java, SQL, Javascript)   *San Diego, CA*
- Designed a stock application allowing users to log in, view stocks, and predict future patterns.
- Built Spring Boot Java backend using SQL databases storing user account info and stocks
- Used a Python application to web scrape live stock data for real-time information
- Trained neural network with stock patterns predicting short-term change
- Lead a team of 4 using agile methodologies

EDUCATION

The Ohio State University   Present - 2028
Computer Science and Engineering, B.S.   *Columbus, OH*

Del Norte High School   2024
High School Diploma   *San Diego, CA*
- Highschool **GPA: 4.12**
- Relevant Coursework: AP Computer Science A, AP Computer Science P, Data Structures 1-2

OTHER

Eagle Scout   Present
- Award achieved in December 2023, active in Scouts for 9+ years

Oriste Fairway Cafe   2023
- Prepped food for all-day sales, served food, and cleaned up
